

## Auric Systems International Product Discontinuation Notification

Dear Valued Auric System International Customer,

Because of the [Visa Payment Application mandate of October 23, 2007](#) which states: “Acquirers must ensure their merchants, VPN’s and agents use only PABP-compliant applications by 7/1/2010”, Auric Systems will discontinue sales of all versions and releases of the following Non-PABP compliant payment applications effective July 1, 2010:

<b>CN!Express®</b>	<b>CreditNow!®</b>
CN!Express Single User	CreditNow! Single User
CN!Express AutoProcessor	CreditNow! AutoProcessor
CN!Express CX-6000 Single User	CreditNow! CN-3000
CN!Express CX-6000 AutoProcessor	CreditNow! CN-3100

Organizations with current Support & Maintenance Agreements for these Auric Systems International products are eligible to migrate to an Auric PABP-compliant payment application before **MAY 31, 2010** at no cost.  
( [See Migration or Purchase Chart below](#) )

Auric Systems has determined Single User functionality will not be available in the CN!Express CX-7000 Series product. A limited functionality Data Entry Utility (DEU) is available for [CN!Express 7002, 7005, 7010](#) and [Trevance CN-4200 & CN-4250](#). An additional charge will apply for the DEU. Contact Auric Systems International at 603-924-6079.

If your organization is importing transactions into a Single User application, our auto processing (AutoProcessor) solution is recommended.

Organizations seeking Single User transaction entry functionality may determine the Chase Paymentech [Orbital Gateway Virtual Terminal](#) is appropriate for transaction entry and processing. Contact your Chase Paymentech representative for additional information.

Click [CN!Express CX-7002](#) or [Trevance CN-3500](#) to learn more about these AutoProcessor applications.

Auric can credit the value of the no cost migration application, towards higher value versions of Auric's payment applications. The chart on the next page indicates the no cost and reduced cost choices.

**\*Migration support is subject to migration support technician availability\***
